DETAILED ACTION

1. In response to the communication dated 04/25/2008, claims 1-19, 21 are pending and in the condition for allowance.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter J. Manghera, Reg. No. 40,080 on July 21, 2008.

The application has been amended as follows:

Claim 1. (currently amended)

A configuration system comprising:

a processor;

a user interface, wherein said user interface receives input data for a desired configuration; and
a frame engine, receiving data input from said user interface, wherein said frame engine outputs configuration data to said user interface in response to a frame-based inference of the input data by examination of a hierarchical data tree structure having nodes whose components contain data relevant to various configurations and by removing appropriate portions of the data tree structure from consideration as input data is received for a desired configuration.

Art Unit: 2163

Claim 20 (canceled)

Allowable subject matter

3. The following is an examiner's statement of reason for allowance:

None of the references of record Quintero (US 5,293,479) and Tsuda (US 5,175,795) teaches or suggests the claimed (Claim 1) invention having, in addition to the other limitations in the claims, the limitation of "a frame engine, receiving data input from said user interface, wherein said frame engine outputs configuration data to said user interface in response to a frame-based inference of the input data by examination of a hierarchical data tree structure having nodes whose components contain data relevant to various configurations and by removing appropriate portions of the data tree structure from consideration as input data is received for a desired configuration".

None of the references of record Quintero (US 5,293,479) and Tsuda (US 5,175,795) teaches or suggests the claimed (Claims 11 and 17) invention having, in addition to the other limitations in the claims, the limitation of "performing a frame-based inference by examination of a hierarchical data tree structure having nodes whose components contain data relevant to various configurations and by removing appropriate portions of the data tree structure from consideration as project selections are entered, thereby to obtain inferences in response to project selections made in said configuring step".

Dependent claims are allowable because they depend from base claim.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

5. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
